Houston, TX 77007

December 2, 2025

Dear TxDOT Houston District

Houston Super Neighborhood 14 Lazybrook/Timbergrove is writing to express its support for consideration of the No Higher No Wider I-10 proposed alternative involving the capping of I-10 between Memorial Park and Patterson, areas that are already below grade.

As residents who live along corridor impacted by the I-10 Inner Katy Managed Lanes Project (the "Project"), we would appreciate your consideration of the No Higher No Wider proposal and minimize the impact the improvements to I-10 has and will have on our community. Adding caps to the below-grade portions of I-10 will fit within the existing footprint of the Project. It will also serve to reconnect those communities divided by the interstate, provide additional green space, help mitigate noise pollution, and provide additional enhancements to the communities affected by the Project.

Thank you in advance for considering this valuable project.

Sincerely,

Marie Carlisle
President, Super Neighborhood 14
